REDDY MONISHA

Ph: +33 758731695 | monishareddy528@gmail.com | LinkedIn | GitHub

PROFILE

AI and Data Science student specializing in machine learning, data analytics, and business intelligence. Experienced in developing predictive systems, building data-driven solutions, and transforming raw data into meaningful insights. Seeking opportunities to apply analytical and technical skills to real-world challenges.

SKILLS

- **Data Analytics & Visualization:** Power BI, DAX, Data Cleaning, Data Visualization, Reporting, Dashboard Development
- **AI/ML & Data Science:** Machine Learning, Deep Learning, Prompt Engineering, Agentic AI
- **Languages:** Python, C, C++, Java, JavaScript, HTML, CSS, Shell Scripting
- **Tools:** VS Code, MySQL, Git, GitHub, Streamlit, Linux
- **Language Proficiency:** English (C2), French (A1)

EXPERIENCE

Data Analyst – Vendor | Geschäft Formulae India Pvt. Ltd. *Jan. 2026 – Mar. 2026*

- Developed an end-to-end Power BI reporting solution for Sarda Diary project, transforming raw business datasets into interactive dashboards that provided consolidated operational insights.
- Worked extensively with OData data integration and Power Query to extract, transform, clean, and structure source data for Power BI while addressing data quality requirements.
- Built analytical dashboards using data modeling, DAX, KPIs, and interactive visualizations, delivering business-focused reporting with dynamic measures and filtering to enable effective decision-making.

Data Analyst Intern | Geschäft Formulae India Pvt. Ltd. *Sept. 2025 – Nov. 2025*

- Engineered an end-to-end Power BI reporting solution for AMS ticket analysis, delivering consolidated visibility into ticket volumes, status, aging, resolution time, and performance metrics.
- Developed advanced DAX-based analytics for Open/Closed Tickets, Average Resolution Hours, dynamic Ticket Aging, and standardized aging buckets to strengthen operational reporting.
- Optimized dashboard performance analysis through MTD/YTD metrics, Current Year vs Previous Year comparisons, and synchronized calendar/fiscal attributes.

PROJECTS

Air Quality Forecast and Asthma Alert System *Nov. 2025 – Feb. 2026*

- Developed a real-time air quality monitoring and forecasting system using live AQI data from CPCB integrated with Machine Learning, Python, and Streamlit.
- Implemented personalized asthma alerts and health advice alongside interactive visual dashboards and notifications.

Real-Time Handwritten Digit Recognition System *Nov. 2024 – Feb. 2025*

- Built a real-time digit recognition system using CNN trained on the MNIST dataset with Python and TensorFlow.
- Integrated OpenCV pipeline to successfully capture, process, and classify live digits via real-time webcam input.

CERTIFICATIONS

- Deloitte Data Analytics Job Simulation – Forage (June 2025)
- Tata Data Visualisation: Empowering Business with Effective Insights Job Simulation – Forage (June 2026)
- TCS iON Career Edge – Young Professional (July 2026)
- Google Cloud Study Jam in Cloud Computing Foundations and GENAI Pathways (October 2023)

EXTRACURRICULAR

- Smart India Hackathon (SIH) Finalist (December 2024): Team Legis-Learners; built a gamified platform to promote constitutional literacy.
- Department Magazine Coordinator (November 2024 – January 2026): Spearheaded design and compilation of department newsletters.
- GDSC Associate (September 2023 – June 2024): Organized technical events and contributed to community initiatives as a Google Developer Student Clubs Associate.

EDUCATION

Aivancity School of AI and Data for Business & Society *Sept. 2026 – Present*
Masters in Artificial Intelligence and Data Science
MLR Institute of Technology *Sept. 2022 – May 2026*
Bachelor of Technology in Computer Science and Information Technology | CGPA: 9.00 / 10.00
